THE WAY I WORK

Ideas with follow-through.

I help homeowners see what is possible, decide what to change or keep, and carry the details through to a finished space.

My background combines interior design, specialist paint finishes and project coordination, with hands-on knowledge of how the work gets done.

I can help you make decisions, source what is needed and coordinate agreed improvements. I also undertake specialist finishing myself.

When helpful, I can connect you with reputable local contractors.
